RE: Tracy V. Lovelace Sandia Health Services, Et Al. Claim #554 06 001460

Dear Ms. Green:

We understand that mediation on the above scheduled case is on Wednesday, March 21, 2007 in Albuquerque, NM. Due to the limits available under our previous Fireman's Fund policy, we expect you to resolve this matter within the \$1,000,000 limit of the policy. Taking this case to trial will certainly give risk to an excess policy verdict. Doing such will put Cirrus in a situation of no cash reserve in excess of the policy limit. The appeal process could be years before any award exceeding the policy limit would (or could) be paid. On the other hand, they could receive their money in a short period of time. If Fireman's Fund receives a settlement offer within the \$1 million limits, and do not settle the claim, Fireman's Fund will be responsible for any verdict over the \$1 million limit. In addition, an excess policy verdict would put our organization out of business.

We appreciate your attention to our best interests and your resolving this matter within the policy limits.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Allen", written over a horizontal line.
